(2) On medical file 130 of 1917 regarding a thorough revision of the existing scheme of scholarships the Comptroller has remarked that there are no funds available for the increases proposed. One of the most pressing directions in which more liberal scholarships are necessary is that for the training of lady medical officers subordinates and in this fund are not available. It does not seem possible, therefore, to sanction the present proposals.

Sir,

*Referred to
for order*

In continuation of my letter No. G.C. 489, dated 1/4-3-18, regarding the enhancement of the rate of stipend to be given to the Mysore Medical pupils studying in the Royapuram Medical School, Madras, I have the honour to state that the stipendiaries of the Local Medical School, have submitted a petition through their Principal, praying that the present rate of scholarship, viz. Rs.9/- per mensem during the 1st year course and Rs.10/- per mensem during the subsequent three years being very inadequate, the rate may be raised to cover the actual cost of living which is reported to come to Rs.18/-

2. There is no doubt that living has become very much costlier than what it was when the present rate was fixed, and the reasons for raising the rate of stipend in Madras, hold equally good in Bangalore. I therefore recommend that a uniform rate of Rs.15/- per mensem may be fixed instead of the present two rates of Rs.9/- for the first year and Rs.10/- for the subsequent three years, a differentiation which was justified in the early days when the first year's Course could have been undergone by a candidate in the Local Hospital, but for which there is no justification now, as
